WORK EXPERIENCE

12/07/2022 – CURRENT Baku, Azerbaijan

SOFTWARE DEVELOPER STEP IT ACADEMY

- **Writing Code:**
 - Develop high-quality, maintainable, and efficient code according to project requirements.
 - This involves understanding specifications, designing solutions, and implementing them using appropriate programming languages and frameworks.
- **Testing and Debugging:**
 - Conduct thorough unit testing to verify the functionality and integrity of your code.
 - Debugging skills are crucial for identifying and fixing any issues or bugs that arise during development or testing.
 - Use debugging tools effectively to diagnose problems and ensure the reliability of your code.
- **Collaboration:**
 - Work closely with other team members such as designers, product managers, and fellow developers to understand project goals and requirements.
 - Collaborate effectively to share ideas, knowledge, and best practices, ensuring the success of the project.
- **Code Reviews:**
 - Participate actively in code reviews to maintain code quality and foster a culture of learning and improvement within the team.
 - Provide constructive feedback on code contributed by team members and incorporate feedback on your own code to ensure continuous improvement.
- **Version Control:**
 - Utilize version control systems like Git to manage codebase and collaborate effectively with other team members.
- **Problem Solving:**
 - Analyze complex technical problems and propose effective solutions, considering factors such as scalability, performance.
- **Learning and Growth:**
 - Stay updated with the latest technologies, tools, and best practices in software development through self-learning, training, and participation in relevant communities.
- **Communication:**
 - Clearly communicate technical concepts, project status, and challenges to team members and stakeholders, both orally and in writing.
- **Customer Support:**
 - Provide technical support and assistance to customers and end-users as needed, resolving issues and improving user experience.
- **Performance Optimization:**
 - Identify and address performance bottlenecks in software applications through profiling, optimization, and refactoring.
- **Security:**
 - Implement security best practices and protocols to safeguard applications against vulnerabilities and unauthorized access.
- **Mentorship:**
 - Share knowledge and best practices with junior team members, providing guidance and support to help them grow as developers.

● **EDUCATION AND TRAINING**

12/07/2022 – CURRENT Baku, Azerbaijan
ASSOCIATE DEGREE STEP IT ACADEMY

Website itstep.az

● **LANGUAGE SKILLS**

Mother tongue(s): **AZERBAIJANI | RUSSIAN**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	A2	B1	B1	B1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

● **DIGITAL SKILLS**

Soft-Skills

Testing and Debugging | Learning and Growth | Mentorship | Security | Performance Optimization | Customer Support | Communication | Writing Code | Collaboration | Problem Solving | Version Control | Code Reviews

Development-Skills

Git | C# | C# WPF MVVM | Bootstrap | Asp.Net Core (Entity Framework and MS SQL) | JavaScript | SQL | POSTRESQL | React.js and Javascript | HTML | MSSQL | CSS | MySQL | JWT
